Innovative education made accessible.

At Teachze, we believe that a strong foundation in education is key to unlocking every institution's potential. Our team of experienced professionals works hand-in-hand with schools and institutes to ensure seamless integration of our solutions, helping them navigate the challenges of the modern educational landscape. Join us in our mission to create schools of excellence and discover how Teachze can empower your institution to achieve greatness. Together, let's shape the future of education and inspire the leaders of tomorrow.

Our purpose is to democratize world-class education and make it accessible to every single corner of India.

What's Inside?

Note from the Founder

I have always believed that we, as the human race, must bolt towards innovation and progress. Knowledge is the only way forward and learning is the key to a prosperous future.

I am elated to introduce Teachze - an education technology company dedicated to revolutionizing the way we learn and bolting towards tech-enabled educational excellence. Our mission is to empower learners of all ages & backgrounds with the knowledge and skills they require to pave their path in the modern world.

At Teachze, we believe that education is the foundation of a brighter future and assembling a team of experienced educators and technologists has been our priority. Our educators carry the Teachze DNA - being passionate about leveraging the latest in AI and technology to create personalized, engaging learning experiences for our students. As a team, we are driven by a shared commitment to providing high-quality education solutions that meet the needs of learners across the globe. Education must be accessible to everyone, and we're dedicated to bringing that to reality through our innovative approaches to teaching and learning. We teach our students to tackle the world head-on, and we're prepared to go the distance with them.

I invite you to join our journey as we shape the future of education together. Whether you're a student, teacher, or education enthusiast, we welcome you to our family of passionate learners and educators.

Thank you for considering Teachze as your education partner. We look forward to making a positive impact on the world through education with you.

Dinesh Kumar
Co-founder & CEO

Bringing an enriching learning experience to the education landscape.

We put the 'Tech' in 'Teach'.

From students, to teachers, Teachze's promise is to bring an innovative touch of quality & excellence to academic standards. Providing a digitally-enabled learning experience to schools & institutes that do not possess the infrastructure to uphold tech-first education.

VISION

Learning: The access key to a successful future

Quality learning is at our core, but access to quality education is the Teachze heart. Teachze being a digital learning platform wants to ensure that it enables a large majority of learners across the globe to have complete access to quality learning.

MISSION

Bolting towards tech-enabled education excellence

Teachze aims at enhancing the standard of education in India through technology. A step-by-step process that includes not only the physical presence of technology, but also behavioural developments in teachers, students, and parents.

At Teachze, we truly understand that technology is a daily learning experience. And combined with the education system, it enhances the learning experience and concurrently creates a superior standard of learning and understanding.

LEADERSHIP TEAM

Dinesh Kumar
CEO

EDUCATION FOR ALL - This is the mission that drives Dinesh Kumar. As a Silicon Valley professional and USC alumni with over ten years of experience working for companies like NVIDIA, HP, and various other startups, he possesses the expertise necessary to build a competitive yet enriching learning platform. He is passionate about technology and is particularly invested in using it to solve the genuine issues we face in the world today.

Vyshnavi
COO

Vysh is an alumna of Academy of Arts, San Francisco and has experience working for a Fortune 100 company. She has a passion for product design and wants to use her creative abilities in the field of education. She has a keen eye for detail and has won awards for her designs. She has established a strong track record in conceptualizing innovative product designs and loves to experiment with creative processes.

Joshi Kumar
CTO

A technological geek at heart, Joshi is an alumnus of the National University of Singapore. He knew where his heart lies and pursued his career in the technology industry. Now he has over 10 years of experience working for Fortune 500 companies. He puts his creative best forward when finding solutions to problems and believes that technology is no less than magic if you explore enough.

18. Easy creation & administration

This feature saves time and reduces the chances of errors during the test creation process.

19. Annotations for teacher feedback

It ensures students understand feedback and make necessary adjustments for improvement.

20. Stylus based evaluation

It enables students to express themselves freely and teachers to evaluate work accurately.

21. Answer review with explanation

On-spot notification triggers that keep the end users updated on school/ institute activities.

FAQs

Q. What is HeyCampus ERP?
A. HeyCampus ERP is a comprehensive enterprise resource planning system specifically designed for schools and educational institutions. It provides a single, integrated solution for managing various aspects of school operations, including academic management, student and employee management, financial management, and more.

Q. How does HeyCampus ERP benefit schools?
A. HeyCampus ERP streamlines and automates various school processes, reducing manual effort and errors. It also provides real-time data and analytics to help schools make informed decisions, improve student engagement, and optimize resource allocation.

Q. What modules are included in HeyCampus ERP?
A. The HeyCampus ERP system includes modules for academic management, student and employee management, financial management, human resources management, and more.

Q. How is HeyCampus ERP implemented in a school?
A. HeyCampus ERP can be customized and tailored to the specific needs and requirements of each school. The implementation process typically involves data migration, system configuration, user training, and ongoing support.

Q. How secure is the data in HeyCampus ERP?
A. HeyCampus ERP follows strict security protocols and best practices to protect sensitive school data. The system includes various security measures, such as data encryption, access controls, and regular backups.

Q. How is HeyCampus ERP supported and maintained?
A. HeyCampus ERP includes ongoing support and maintenance to ensure that the system is always running smoothly and efficiently. This includes regular software updates, bug fixes, and technical support.

Q. What is the cost of HeyCampus ERP?
A. The cost of HeyCampus ERP varies depending on the specific needs and requirements of each school. Contact HeyCampus for a customized quote and pricing information.

How HeyCampus creates a positive difference in the system?

Improved Financial Performance

With real-time financial data and analytics, an ERP system can help the institution make better-informed budgeting and financial planning decisions, leading to improved financial performance and increased cost savings.

Increased Operational Efficiency

By automating processes and streamlining workflows, an ERP system can reduce the time and resources required for manual tasks and administrative processes, freeing up the physical staff to focus on more important tasks and improving overall operational efficiency.

Better Decision-making

With access to real-time data and analytics, the institution can make informed decisions based on accurate, up-to-date information, leading to improved academic and financial performance.

Improved Resource Allocation

With real-time data on student performance and resource utilization, the institution will be able to allocate resources more effectively, leading to improved student outcomes and better use of school resources.

Increased Student Engagement

By providing students with access to their academic records, schedules, and other important information, the school can increase student engagement and investment in their education, leading to improved academic performance and outcomes.

Increased Security and Privacy

With secure data storage and access controls, ERP systems can help schools maintain the privacy and security of sensitive student and school information.

Improved Collaboration

ERP systems can facilitate communication and collaboration among teachers, administrators, and students, leading to a more connected and engaged school community.

How to get HeyCampus?

To help schools get started with our ERP solution, we are offering it for **FREE for the first year.** This allows schools to try out our solution and see how it can benefit their operations before committing to a long-term subscription.

Teachze

DigiCampus

Digital Classrooms

DigiCampus

Digitizing classrooms does more than create an interactive session. It helps the students to better connect with the learning material. With DigiCampus solutions, we help schools digitalize their classrooms and make the teaching process more interactive and engaging for students. We offer a range of hardware options, including Interactive Digital Boards and Audio-visual equipment.

Interactive Digital Boards

Equipped with touch-sensitive tech, Interactive Digital Boards allow teachers to write, draw, and interact with all kinds of multimedia content in real time. This makes teaching interactive, engaging, and more productive by eliminating learning gaps and accelerating every student's progress.

Audio-visual Equipment

From microphones to cameras, Teachze provides top quality audio-visual equipment that helps schools create a more immersive learning experience. These tools can be used to record lectures, host online classes, and more.
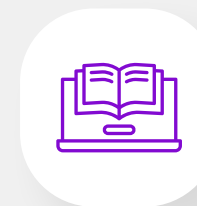

# Product Features

Customized Hardware Solutions

Teachze offers hardware solutions that can be customized to meet the specific needs of each school.

For example, Teachze can set up a digital-first Teachze classroom in your school that includes a smart board, microphone, and camera. This way, students can access Teachze courses from anywhere in the world, giving them the opportunity to learn from teachers with different skill sets and expertise.

Learn from anywhere, everywhere

Learning from anywhere is fine, but learning from everywhere? Give students the freedom to learn from everywhere. One of the best features of having a digital classroom is that the students can learn from wherever they are.

Teach better, learn better

Digital-first learning helps children develop practical and essential learning skills. Digital classrooms not only make an engaging classroom but also use tools & techniques that sharpen the students' critical thinking skills.

How to get DigiCampus?

To help schools get started with our ERP solution, we are offering it for **FREE for the first year.** This allows schools to try out our solution and see how it can benefit their operations before committing to a long-term subscription.

How DigiCampus creates a positive difference in the system?

Improved Engagement

Interactive and visually appealing technology enhances student engagement, leading to increased retention of information and improved learning outcomes.

Enhanced Collaboration

The use of technology in the classroom enables students to work together on projects, improving collaboration and teamwork skills.

Increased Flexibility

Digital equipment and technology allow for more flexible and varied teaching methods, accommodating different learning styles and providing opportunities for personalized learning.

Improved Accessibility

Digital technology makes it easier for students to access educational resources, including online materials, multimedia content, and educational software.

Future-Proof Education

The use of technology in the classroom prepares students for the future, providing them with the skills and knowledge they need to succeed in the increasingly digital world.

FAQs

Q: What is Teachze's Digicampus solution?
A: Teachze's Digicampus solution is a comprehensive education technology solution that includes an AI-powered ERP, hardware solutions to digitalize the classroom, and coaching programs for courses such as NEET, JEE, Speed Maths, Spoken English, and Spoken French.

Q: What does the hardware solution include?
A: The hardware solution includes the setup of a Smart Board and AV setup for live and interactive classes, as well as the setup of STEM labs.

Q: What are the benefits of Teachze's Digicampus solution for schools?
A: The benefits of Teachze's Digicampus solution for schools include improved student engagement and retention of information, streamlined management, enhanced collaboration, improved accessibility to educational resources, and prepare students for the future.

Q: What is the advantage of having a smart classroom equipped with a Smart Board, digital equipment, and audio and visual technology?
A: The advantage of having a smart classroom equipped with a Smart Board, digital equipment, and audio and visual technology includes improved engagement, enhanced collaboration, increased flexibility, improved accessibility, and preparing the students for the future.

Q: Is the coaching provided by Teachze online, offline, or a hybrid of both?
A: The coaching provided by Teachze is available in three options: online, offline, or a hybrid of both.

Q: How will Teachze's Digicampus solution move schools towards digital revolution and innovation?
A: Teachze's Digicampus solution will move schools towards digital revolution and innovation by providing a comprehensive education technology solution that embraces technology and innovation, improving the learning experience for students, and simplifying the management process for teachers and staff.

Teachze

Academy

About Teachze Academy

Teachze Academy is every student's way to improve their skills if they are preparing for competitive exams like NEET and JEE, or even if they just want to learn a new language. Teachze Academy has a course that can meet every need.

Teachze Academy more than a wide range of courses that will help students unlock their full potential. Designed to be interactive and engaging, our courses are based on the latest methodologies from **STEM and Cambridge.**
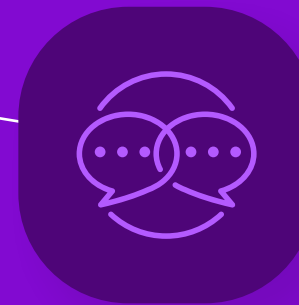

STEM.org is the longest continually operating, privately-held STEM education research and credentialing organization in America.

The University of Cambridge sits at the heart of one of the world's largest technology clusters, promotes the interface between academia and business, and has a global reputation for innovation.

Through our partnership with STEM and Cambridge, Teachze Academy offers high-quality courses that are recognized globally. We believe that our courses can help students excel in their studies and prepare them for success in the 21st century.

The 5E Learning Approach

ENGAGE
The teacher captures the students' attention and generates interest in the subject matter.

EXPLORE
The students elaborate on their understanding of the subject matter through further exploration, discussion, and reflection.
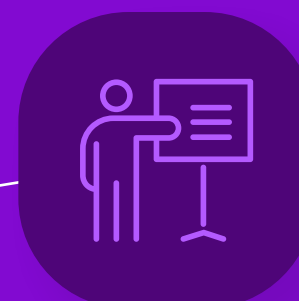

EVALUATE
The students evaluate their understanding of the subject matter through assessments and evaluations.

ENGAGE
The teacher provides explanations and clarifications of the subject matter.

ELABORATE
Students deepen understanding through exploration, discussion, and reflection.

For K-12 Students

Teachze empowers students to excel academically and beyond. Our courses foster personal growth, providing valuable knowledge and tools for enhanced learning, personal development, and future success.

A: Teachze's hybrid learning method uses an online platform to connect students with the best educators from around the world. The teachers conduct sessions directly in the classroom through the use of smart boards, audio, and video equipment.

Q: What study materials are provided with Teachze's hybrid learning method coaching?
A: Teachze's hybrid learning method provides comprehensive study materials, including books and other learning aid, to help students achieve their goals.

Q: How can I get started with Teachze's hybrid learning method?
A: Getting started with Teachze's hybrid learning method is easy. Just contact us and we will guide you through the process of implementing our innovative coaching solution in your classroom.

Q: What are the benefits of Teachze's hybrid learning method?
A: Teachze's hybrid learning method offers several benefits, including access to the best teachers from around the world, personalized and engaging learning experiences, flexible learning schedules, and the convenience of learning in the classroom environment.

Testimonials

Parent: Praghya
Grade 10

I have seen a visible change in my kid's interest, thanks to Teachze. He has become an active participant in class and his overall performance improved a lot.

Mr. L. Arivarasu
Principal
Arasan Model School
Sivakasi

Teachze is an amazing forum for students to learn and we have seen our students excelling in their examinations. We are extremely happy with their teaching methodology and their tests, assignments and projects. In addition, they have been a wonderful partner to us in conducting workshops, camps, etc. We hope all the best to Teachze so that they can continue to serve many more students.

Ms. Thendral
Vice Principal
Fatima Matriculation Sr.
Sec. School, Madurai

We chose to take French with Teachze as a class, and we are so glad that we did! The instructor was knowledgeable, patient, and engaging. She took the time to explain difficult concepts and was always willing to answer questions. We appreciate that the course was structured in a way that allowed students to work at their own pace and focus on areas where they needed the most improvement.

Words by Students

Teachze is a very helpful platform to students. The teachers are available to the students and provide them with help. They also take the initiative of giving feedbacks and mails to the parents of the students. The lectures are well explained.

C.A. Preethi
NEET 1 Year

Ms Anitha
Teacher
Holy Cross School
Bangalore

The classes were great. The teachers were very knowledgeable, and the students interacted with them very well. The classes were up to date, and the teachers had a great grasp of the topics. Also, I feel that the teachers made it as interesting as possible so that students would be able to grasp concepts easily.

Teachze has helped me a lot on learning Biology. It's great for students who want to learn Biology and have time to study on their own.
